Afterschool and summer programs provide hands-on learning opportunities and a natural space for students to explore, learn, and grow. These programs spark students’ interest in STEM and computer science subjects, expose them to future careers, and support school-day learning, all while developing a new generation of problem solvers. But, inequities exist and too many young people are missing out.

Opportunities for STEM learning in Arkansas-Mississippi Delta region afterschool programs and summer camps

According to the America After 3PM survey, 13,426 Arkansas-Mississippi Delta region children participate in an afterschool program and 9,323 children have opportunities to participate in STEM learning in those programs. Sixty-nine percent of families in the Arkansas-Mississippi Delta region report their child’s afterschool program offers STEM learning.

STEM learning in the time of COVID-19:

Nationally, afterschool and summer programs continue to offer STEM learning opportunities

A survey conducted in early 2021 found that 76 percent of afterschool programs were providing STEM learning opportunities, which is similar to the rates of STEM offerings before the pandemic. A June 2021 survey found that 83 percent of summer programs were physically open this year, a nearly 70 percent increase from 2020, with 72 percent offering STEM learning opportunities.

- Mississippi: 71%
- Arkansas-Mississippi Delta region: 79%

STEM and computer science are an important factor for a majority of parents when selecting their child's afterschool program

Parents reporting that STEM and computer science learning opportunities are important when choosing an afterschool program

- Arkansas: 59%
- Mississippi: 64%
- Arkansas-Mississippi Delta region: 62%

Afterschool programs reach populations traditionally underrepresented in STEM*

Women and people of color are underrepresented in STEM professions. Nationally, parents of Black and Latinx students report that their child’s afterschool program offers STEM learning at higher rates than parents of White students. Girls have opportunities to participate in STEM learning at similar rates to boys.
Many Arkansas-Mississippi Delta region children are missing out

In the Arkansas-Mississippi Delta region, for every child in an afterschool program, 3 are waiting to get in. Unmet demand for summer programs is also high for families in the Arkansas-Mississippi Delta region. In 2019, more than 26,000 children would have been enrolled in a summer program if one were available to them.

In the Arkansas-Mississippi Delta region, cost and access top the list of roadblocks to afterschool program participation

- Programs are too expensive
- Transportation issues, no safe way to and from program
- Lack of available programs

Parents support public funding for afterschool and summer programs

- 93% of Arkansas-Mississippi Delta region parents in favor of public funding for afterschool
- 91% of Arkansas-Mississippi Delta region parents in favor of public funding for summer learning opportunities

Public funding brings greater opportunities for students to explore hands-on STEM learning in their afterschool programs.

Afterschool and summer STEM learning offer unique benefits and reach youth traditionally underrepresented in STEM, but millions are missing out. Help us ensure all children have access to afterschool and summer STEM learning.

About the survey

America After 3PM is a national survey of parents or guardians of school-aged children, screening 31,055 households and having 14,393 households completing in-depth interviews via an online survey using a blend of national consumer panels. At least 200 households completed interviews in every state and Washington, D.C., between January 27 and March 17, 2020. Where the minimum could not be met, supplemental telephone interviews were conducted. Data were collected by Edge Research on behalf of the Afterschool Alliance. The percentages and projected numbers in America After 3PM are based on survey responses from parents. In the Arkansas-Mississippi Delta region, 157 households and 276 children were screened for this study. Child-level statewide projections and total school enrollment numbers are based on ZIP Code Tabulation Areas (ZCTAs), U.S. Census Bureau, American Community Survey 2018 5-Year Estimates. Total school enrollment for the Arkansas-Mississippi Delta region is 89,508.

The America After 3PM special report, STEM Learning in Afterschool on the Rise, But Barriers and Inequities Exist, is based on research commissioned and funded by Overdeck Family Foundation. Overdeck Family Foundation was founded in 2011 by John and Laura Overdeck with the goal of providing all children the opportunity to unlock their potential. They focus exclusively on enhancing education, funding efforts both inside and outside of school in the areas of early childhood, informal STEM education, and K-9 programs that include supporting educators and student-centered learning environments.
