For years, afterschool programs have kept kids safe, inspired them to learn, and offered parents peace of mind that their children are constructively engaged in the hours between the end of the school day and when parents return from work.

Yet, in North Dakota, America After 3PM found that for every child in an afterschool program, 2 are waiting to get in, with 26,937 children alone and unsupervised after school.

The number of students left without afterschool in North Dakota is on the rise

There are now 37,532 children (38%) in North Dakota who would be enrolled in an afterschool program if one were available to them. In the last decade, the number of children unable to access afterschool programs has grown in North Dakota by 13,935.

North Dakota children who are fortunate enough to take part in afterschool programs are receiving critical supports

94% of North Dakota parents are satisfied with their child’s afterschool program. North Dakota children in afterschool programs are:

- Building life skills: 78%
- Getting help with homework: 70%
- Engaging in STEM or computer science learning opportunities: 71%
- Taking part in physical activities: 92%
- Receiving healthy snacks or meals: 75%
- Interacting with peers and building social skills: 100%
Additionally, North Dakota parents report high levels of satisfaction with supports in their child’s afterschool program, including:

- **17,541**: Number of children in afterschool programs
- **8 hours**: Average hours per week children spend in an afterschool program
- **4 days**: Average days per week children spend in an afterschool program
- **$54.20**: Average weekly cost of afterschool programs* 
- **23%**: Percentage of children in afterschool who are from low-income households 
- **74%**: Percentage of afterschool programs located in a public school building

*Among parents who report that they pay a fee for their child's afterschool program
A significant percentage of parents in North Dakota report challenges to enrolling their child in an afterschool program, for example, nearly 1 in 2 parents said that the cost of programs was an important factor in their decision not to enroll their child in a program.

As high levels of parents reported barriers to participation, afterschool program participation in North Dakota saw a decrease compared to the last America After 3PM survey in 2014.

There is significant bipartisan support for greater investment in afterschool

To help ensure that all children in North Dakota who want to participate in an afterschool program are able, greater investment in afterschool is needed. Support for public funding for afterschool programs in North Dakota is high, with 84% of parents in favor of funding for programs that provide afterschool opportunities.

In the face of the ongoing pandemic, parents nationally continue to see afterschool programs as a resource to promote their child’s growth and development while also helping parents maintain or find employment. In an October 2020 national survey of parents, 77% agreed that Congress should provide additional funding for afterschool programs to operate during virtual school days.

About the survey

America After 3PM is a national survey of parents or guardians of school-aged children, screening 31,055 households and having 14,393 households completing in-depth interviews via an online survey using a blend of national consumer panels. At least 200 households completed interviews in every state and Washington D.C., between January 27 and March 17, 2020. Where the minimum could not be met, supplemental telephone interviews were conducted. Data were collected by Edge Research on behalf of the Afterschool Alliance. The percentages and projected numbers in America After 3PM are based on survey responses from parents. In North Dakota, 260 households and 187 children were screened for this study. Child-level statewide projections and total school enrollment numbers are based on 2018-2019 Department of Education, National Center for Education Statistics. Total school enrollment for North Dakota is 117,146.
