About the Survey

America After 3PM is a national online survey of parents or guardians of school-aged children, with supplemental interviews conducted by telephone. Data were collected by Edge Research on behalf of the Afterschool Alliance. In Oregon, 369 households and 567 children were screened for this study. Child-level statewide projections are based on total school enrollment numbers for the 2021-2022 school year from the U.S. Department of Education, National Center for Education Statistics.

America After 3PM was made possible through our partnership with the New York Life Foundation.
