In Minnesota, afterschool programs provide expanded learning opportunities to 129,620 students and are a lifeline for working families. In Minnesota, 82% of parents report that all young people deserve access to quality afterschool and summer programs. Yet, too many kids in Minnesota are being left out. In fact, for every child in an afterschool program, 3 more would participate if a program were available.

Helping young people learn, grow, and thrive

Students in afterschool programs in Minnesota are:

- Interacting with peers and building social skills 89%
- Getting homework help 57%
- Taking part in physical activities 88%

A 2018 evaluation by the Minnesota Department of Education found that the higher a students’ attendance in Minnesota’s 21st CCLC afterschool programs, the more likely they were to score a “proficient” in reading and math on state assessments, in particular students in need of additional supports. For example, high-attending, limited-English-proficient students were 53% more likely to be proficient in reading and 125% more likely to be proficient in math compared to their peers with low program attendance.

Parents in Minnesota agree that afterschool programs:

- Provide opportunities to build life skills 81%
- Get kids excited about learning 66%
- Reduce the likelihood that youth will use drugs or engage in other risky behaviors 71%

Call and response: Afterschool programs stepping up during the pandemic

From the outset of the pandemic, afterschool programs have adapted and expanded their services to best meet the needs of the children and families they serve. At the Boys & Girls Clubs of Central Minnesota, providing emergency child care for essential workers has been a community-wide effort. They partnered with local school districts to provide child care for emergency and health care workers, so that schools could focus on providing meals and distance learning for students.

A 2021 national survey of afterschool providers finds programs continue to provide:

<table>
<thead>
<tr>
<th>Service</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Academic enrichment</td>
<td>94%</td>
</tr>
<tr>
<td>Time to interact with peers</td>
<td>86%</td>

21st Century Community Learning Centers

21st Century Community Learning Centers (21st CCLC) are local before-school, afterschool, and summer learning programs that serve students attending high-poverty, low-performing schools, engaging students in hands-on learning activities aimed at supporting their academic growth. They provide a variety of enrichment activities to complement school-day learning and offer educational and support services to the families of participating children.

In Minnesota, 20,951 children in 91 communities take part in a Community Learning Center.

21st CCLC grants are the only dedicated federal funding source that support local communities’ afterschool and summer programs. Demand for programs is so great in Minnesota that 7 out of every 10 applications cannot be funded.

The 2020 Department of Education annual performance report of 21st CCLC found that among regular participants:

- Nearly half improved their math (48%) and English grades (48%)
- 69% improved homework completion and class participation
- 62% improved their behavior

A lifeline for working families

A national survey of parents in the fall of 2020 found that as the pandemic continued to disrupt school schedules, most parents were concerned about their child’s social and emotional well-being and connection to peers, as well as their own ability to continue to provide learning support and/or care for their child as virtual school and distance learning extends into 2021.

Based on the 2020 America After 3PM household survey, parents in Minnesota agree that afterschool programs:

- Build positive relationships between children and adults 74%
- Keep kids safe and out of trouble 77%
- Help working parents keep their jobs 81%
- Provide working parents peace of mind 84%

A smart investment

Research spanning several states shows that every $1 invested in afterschool programs saves at least $3 by:

1. Increasing kids’ earning potential
2. Improving kids’ performance at school
3. Reducing crime and juvenile delinquency

Additionally, Community Learning Centers leverage diverse partners to meet community needs. A typical program receives $67,000 from partners to supplement its federal funding. Nationwide, partner contributions totaled more than $1 billion between 2006 and 2010.

The Afterschool Alliance is working to ensure that all children and youth have access to quality afterschool programs. Learn more at: www.afterschoolalliance.org

Parents in Minnesota are behind public investment in afterschool programs

84% of parents favor public funding of afterschool programs to expand opportunities for kids in underserved communities.
