

Expanding learning and supports for an equitable recovery

This is Afterschool in West Virginia

In West Virginia, afterschool programs provide expanded learning opportunities to 30,666 students and are a lifeline for working families. In West Virginia, 87% of parents report that all young people deserve access to quality afterschool and summer programs. Yet, too many kids in West Virginia are being left out. In fact, **for every child in an afterschool program, 2 more would participate** if a program were available.

Helping young people learn, grow, and thrive

Students in afterschool programs in West Virginia are:

-  Interacting with peers and building social skills **98%**
-  Getting homework help **66%**
-  Taking part in physical activities **92%**

A 2017 evaluation of West Virginia's 21st CCLC programs by the West Virginia Department of Education found that based on teachers surveyed, 66% of students regularly participating in programs improved finishing their homework, 63% improved their class participation, and 55% improved their classroom behavior. Students in the highest attendance band (120+ days) were the most likely to see gains in homework completion (71%), class participation (77%), and classroom behavior (68%).

Parents in West Virginia agree that afterschool programs:

-  Provide opportunities to build life skills **82%**
-  Get kids excited about learning **76%**
-  Reduce the likelihood that youth will use drugs or engage in other risky behaviors **73%**

Call and response: Afterschool programs stepping up during the pandemic

From the outset of the pandemic, afterschool programs have adapted and expanded their services to best meet the needs of the children and families they serve. The Boys & Girls Club of Parkersburg provided meals for students and families, used their makerspace to create face shields and masks for first responders, and stayed connected to families through virtual check-ins and programming. The Bob Burdette Center in Charleston rose to meet students' social, emotional, physical, and educational needs during the pandemic by providing safe in-person summer and afterschool programming and hiring school staff to reduce learning loss.

A 2021 national survey of afterschool providers finds programs continue to provide:

| | |
|--|------------|
| Academic enrichment | 94% |
| Time to interact with peers | 86% |
| Physical activity | 81% |
| Snacks or meals | 77% |
| Check-ins with student and families | 32% |
| In-person services during virtual school days* | 24% |

Looking toward the summer, **79%** of providers will be offering summer programming.

**Among program providers that report that they are offering in-person services.*

21st Century Community Learning Centers

21st Century Community Learning Centers (21st CCLC) are local before-school, afterschool, and summer learning programs that serve students attending high-poverty, low-performing schools, engaging students in hands-on learning activities aimed at supporting their academic growth. They provide a variety of enrichment activities to complement school-day learning and offer educational and support services to the families of participating children.

In West Virginia, 10,512 children in 145 communities take part in a Community Learning Center.

21st CCLC grants are the only dedicated federal funding source that support local communities' afterschool and summer programs. Demand for programs is so great in West Virginia that **7** out of every **10** applications cannot be funded.

The 2020 Department of Education annual performance report of 21st CCLC found that among regular participants:

Nearly half improved their math (**48%**) and English grades (**48%**)

69% improved homework completion and class participation

62% improved their behavior

A lifeline for working families

A national survey of parents in the fall of 2020 found that as the pandemic continued to disrupt school schedules, most parents were concerned about their child's social and emotional well-being and connection to peers, as well as their own ability to continue to provide learning support and/or care for their child as virtual school and distance learning extends into 2021.

Based on the 2020 America After 3PM household survey, parents in West Virginia agree that afterschool programs:

- Build positive relationships between children and adults **80%**
- Keep kids safe and out of trouble **76%**
- Help working parents keep their jobs **77%**
- Provide working parents peace of mind **79%**

A smart investment

Research spanning several states shows that every \$1 invested in afterschool programs saves at least \$3 by:

- 1** Increasing kids' earning potential
- 2** Improving kids' performance at school
- 3** Reducing crime and juvenile delinquency

Additionally, Community Learning Centers leverage diverse partners to meet community needs. A typical program receives \$67,000 from partners to supplement its federal funding. Nationwide, partner contributions totaled more than \$1 billion between 2006 and 2010.

Parents in West Virginia are behind public investment in afterschool programs

86% of parents favor public funding of afterschool programs to expand opportunities for kids in underserved communities.
