Throughout the pandemic, afterschool and summer programs adapted and expanded services to meet the needs of children and families. They are vital partners today in supporting students’ well-being and academic growth. Yet, too many kids in Oregon are being left out. Prior to the pandemic, a survey of Oregon parents found that for every child in an afterschool program, 3 more would participate if a program were available. These programs provide safe and supportive spaces to keep young people engaged in learning during a difficult and trying time. So it comes as no surprise that in a national fall 2020 survey, 75% of parents agreed that the experience of the pandemic made them appreciate teachers and afterschool providers more than ever before.

Accelerating students’ learning and growth
Students in afterschool programs in Oregon are:
- Getting homework help – 70%
- Taking part in STEM learning opportunities – 74%
- Interacting with their peers and building social skills – 93%
- Promoting healthy futures
Parents in Oregon agree that afterschool programs are helping young people to:
- Learn life skills – 79%
- Build positive relationships with caring adults and mentors – 70%
- Be physically active – 82%
- Access nutritious foods – 67%
- Build confidence – 79%
- Stay safe and out of trouble – 72%

A 2020 evaluation of Oregon’s 21st CCLC programs by JEM & R LLC found that based on teacher reports, roughly 7 in 10 students in need of improvement made gains in their English/reading (74%) and math (72%) performance, as well as improved their relationships with adults (70%), ability to get along with other students (67%), and teamwork and collaboration skills (67%). Additionally, students reported high levels of satisfaction with their programs (82%). Among 11th and 12th graders, 71% indicated that their program helped them prepare for college or a career.

American Rescue Plan Funding Helping Increase Access to Afterschool and Summer Programs During the Pandemic

Over the past two years, an overwhelming majority of afterschool and summer program providers have been concerned about their program’s long-term funding and future. Costs associated with recruiting and retaining staff, instituting new COVID-19 health and safety protocols, and adding program space to allow for social distancing are a few of the added expenses afterschool and summer programs faced through the pandemic. Funds from American Rescue Plan present a tremendous opportunity to help afterschool and summer programs support the children and families in their communities. Through a partnership between the Hillsboro School District (HSD) and the Hillsboro city government using a combination of federal American Rescue Plan (ARP) and Elementary and Secondary School Emergency Relief (ESSER) funds and the Student Investment Account, HSD is expanding access to afterschool programs at 10 schools, eight of which are Title I schools. This approximately $4.8 million investment increases afterschool program slots from 320 students to more than 1,000 students in grades K-6 for the 2021-22, 2022-23, and 2023-24 school years.
Supporting working families
Parents in Oregon agree that after-school:

- Helps working parents keep their jobs – 77%
- Provides working parents peace of mind – 79%
- Helps parents build connections to their child’s school day education – 55%
- Increasing kids’ earning potential as adults
- Improving kids’ performance at school

A smart investment
Research spanning several states shows that every $1 invested in after-school programs saves at least $3 by:

- Increasing kids’ earning potential as adults
- Reducing crime and juvenile delinquency
- Improving kids’ performance at school

Oregon parents want investment in after-school and summer programs
The overwhelming majority of parents in Oregon favor public funding for after-school and summer learning programs:

- 90% favor public funding for after-school opportunities
- 89% favor public funding for summer learning opportunities

Transforming Lives
“During the pandemic, it was challenging because I was social distancing and not doing certain activities. But, my 21st Century Community Learning Center program has been a place where I’ve been able to meet new friends, communicate, and be social with others. I wasn’t a talker, but now I am! The mentors in my program also helped me stay on top of my work and encouraged me. Without my program, I wouldn’t have the grades I do now, and I wouldn’t be as social as I am. I wouldn’t be able to do a lot of things without my program.”

Kyla Anderson
High school student attending a 21st Century Community Learning Center after-school program

21st Century Community Learning Centers
21st Century Community Learning Centers (21st CCLC) are local before-school, after-school, and summer learning programs that serve students attending high-poverty, low-performing schools. These programs engage students in hands-on learning activities aimed at supporting their academic growth, provide a variety of enrichment activities to complement school-day learning, and offer educational and support services to the families of participating children.

The 2021 Department of Education annual performance report of 21st CCLC found that among regular participants:

- 1 in 2 improved their language arts or math grades
- 7 in 10 improved their homework completion and class participation
- More than 3 in 5 improved their behavior in class

In Oregon, 10,592 children in 90 communities take part in a 21st Century Community Learning Center.

21st CCLC grants are the only dedicated federal funding sources that support local communities’ after-school and summer programs.

Demand for programming in Oregon is so great that nearly 2 out of every 5 applications were not funded during the most recent competition.

The Afterschool Alliance is working to ensure that all children and youth have access to quality after-school programs. Learn more at: www.afterschoolalliance.org
