

This is Afterschool in Wisconsin

Throughout the pandemic, afterschool and summer programs adapted and expanded services to meet the needs of children and families. They are vital partners today in supporting students' well-being and academic growth. Yet, too many kids in Wisconsin are being left out. Prior to the pandemic, a survey of Wisconsin parents found that for every child in an afterschool program, **2 more would participate if a program were available.** These programs provide safe and supportive spaces to keep young people engaged in learning during a difficult and trying time. So it comes as no surprise that in a national fall 2020 survey, 75% of parents agreed that the experience of the pandemic made them appreciate teachers and afterschool providers more than ever before.

Accelerating students' learning and growth

Students in afterschool programs in Wisconsin are:

-  Getting homework help – **74%**
-  Interacting with their peers and building social skills – **98%**
-  Taking part in STEM learning opportunities – **67%**

Promoting healthy futures

Parents in Wisconsin agree that afterschool programs are helping young people to:

-  Learn life skills – **80%**
-  Be physically active – **87%**
-  Build positive relationships with caring adults and mentors – **77%**
-  Access nutritious foods – **66%**
-  Build confidence – **79%**
-  Stay safe and out of trouble – **73%**

American Rescue Plan Funding Helping Increase Access to Afterschool and Summer Programs During the Pandemic

Over the past two years, an overwhelming majority of afterschool and summer program providers have been concerned about their program's long-term funding and future. Costs associated with recruiting and retaining staff, instituting new COVID-19 health and safety protocols, and adding program space to allow for social distancing are a few of the added expenses afterschool and summer programs faced through the pandemic. Funds from American Rescue Plan present a tremendous opportunity to help afterschool and summer programs support the children and families in their communities. A National League of Cities report found that while remote learning was going on in Madison, WI, more than 5,000 students were supported during the day and after school through partnerships between the school district, state, county, and non-profit partners. Using a combination of private and public funding, including local child care dollars and Elementary and Secondary School Emergency Relief (ESSER) funds, community learning hubs were created, providing safe and supervised spaces where young people had access to their schools' virtual curriculum, nutritious food, nursing staff, and other in-person enrichment opportunities.

A 2021 evaluation of Wisconsin's 21st CCLC programs by the Wisconsin Department of Public Instruction found that students attending programs saw gains. According to teacher surveys, of students who needed to improve, a majority improved their classroom participation and improved their behavior in the classroom.

Supporting working families

Parents in Wisconsin agree that afterschool:

- Helps working parents keep their jobs – **82%**
- Helps parents build connections to their child’s school day education – **62%**
- Provides working parents peace of mind – **83%**

A smart investment

Research spanning several states shows that every \$1 invested in afterschool programs saves at least \$3 by:

- Increasing kids’ earning potential as adults
- Reducing crime and juvenile delinquency
- Improving kids’ performance at school

Wisconsin parents want investment in afterschool and summer programs

The overwhelming majority of parents in Wisconsin favor public funding for afterschool and summer learning programs:

85%
favor public funding
for afterschool opportunities

85%
favor public funding for
summer learning opportunities

21st Century Community Learning Centers

21st Century Community Learning Centers (21st CCLC) are local before-school, afterschool, and summer learning programs that serve students attending high-poverty, low-performing schools. These programs engage students in hands-on learning activities aimed at supporting their academic growth, provide a variety of enrichment activities to complement school-day learning, and offer educational and support services to the families of participating children.

The 2021 Department of Education annual performance report of 21st CCLC found that among regular participants:

- 1 in 2** improved their language arts or math grades
- 7 in 10** improved their homework completion and class participation
- MORE THAN 3 in 5** improved their behavior in class

In Wisconsin, **9,948 children in 129 communities** take part in a 21st Century Community Learning Center.

21st CCLC grants are the only dedicated federal funding sources that support local communities’ afterschool and summer programs.

Demand for programming in Wisconsin is so great that **3 out of every 4** applications were not funded during the most recent competition.

Transforming Lives

“During the pandemic, it was challenging because I was social distancing and not doing certain activities. But, my 21st Century [Community Learning Center] program has been a place where I’ve been able to meet new friends, communicate, and be social with others. I wasn’t a talker, but now I am! The mentors in my program also helped me stay on top of my work and encouraged me. Without my program, I wouldn’t have the grades I do now, and I wouldn’t be as social as I am. I wouldn’t be able to do a lot of things without my program.”
