Why I'm here

The Newark Museum Explorers after school program has exposed me to various fields in Science through the hands on activities we engage in. Being in this program has made me realize it is possible for me to enter into STEM careers and made me improve upon life skills such as punctuality and socialization.

What Congress can do:

You should help extend and maintain the Newark Museum Explorers program because the skills that we gain from after school has made us become better youth in our society.

The Afterschool Alliance is a nonprofit public awareness and advocacy organization working to ensure that all children and youth have access to quality afterschool programs.
