Asia McCallum: WHY I'M HERE

Aquarium on wheels is an afterschool work-study program for high school students held at the National Aquarium in Baltimore. We embark on educational field trips, conduct laboratory research and produce and perform a play for children at libraries throughout the summer. Our mission as students is to inspire conservation through hands-on education in the community.

Asia McCallum: WHAT CONGRESS CAN DO!

We are hosting a Youth Ocean Conservation Summit on July 22nd 2014 at the Loews Annapolis hotel. This is an extension of a Youth Summit held in Florida, and it is in partnership with the National Marine Educators Association (NMEA). We are inviting our congressmen to the event to support conservation, education, and youth-led advocacy.

The Afterschool Alliance is a nonprofit public awareness and advocacy organization working to ensure that all children and youth have access to quality afterschool programs.

More information is available at www.afterschoolalliance.org.
