Why I'm here?

Afterschool is very important to me because it helps us students develop ourselves in terms of character. It has impacted me greatly because it has made me more outgoing. I work with science related material and help communicate this information to students in Camden schools.

What Congress can do?

Congress can help us maintain after school programs going with their utmost support. Funding for our programs should be provided by congress because it provides elementary and middle school students in Camden be exposed to science material that they do not usually receive.

The Afterschool Alliance is a nonprofit public awareness and advocacy organization working to ensure that all children and youth have access to quality afterschool programs.

More information is available at www.afterschoolalliance.org.
