

Support afterschool for all!

Sara James, age 16
Philadelphia, Pennsylvania
The Franklin Institute
www.fi.edu

Why I'm Here

- My afterschool program is important to me because it helps build the skills need to get a job in the stem field
- It has helped me decide which STEM field I'm going to pursue in college
- This school year I participated in a 20 week longer program to prepare for the ACT

What can Congress do:

- Provide funding to help keep the programs running
- The money will be going to transportation, funding trips, and classes about science.
- This is all for the future S.T.E.M workers. Without these programs there won't be enough people working in the stem field.

The Afterschool Alliance is a nonprofit public awareness and advocacy organization working to ensure that all children and youth have access to quality afterschool programs. More information is available at www.afterschoolalliance.org.
