Why I'm here:

- Afterschool programs are important to me because they can provide support systems.
- They can help develop social skills, and introduce kids to opportunities in the STEM field.
- In PACTS we compete in first lego league, which helps teach kids how to work with a team, translating to everyday life issues.

What Congress can do:

- Provide funding for everyday materials that can keep programs going. Also sponsoring programs for summer camps in densely populated areas.
- You, in positions of power can become advocates for us, and spread the word!

Bottom line, at least considering our cause and being able to put a face to it, gives you a real world example of what programs can do!

The Afterschool Alliance is a nonprofit public awareness and advocacy organization working to ensure that all children and youth have access to quality afterschool programs.
